YABER Lifetime Professional Support

Dear customer,

Thank you very much for supporting YABER!

Please read this manual thoroughly before using the projector. If you have any issues, email your order number and the problem to **aftersales@yaber.com** We will provide a fast solution in 24 hours.

Actually, many problems can be easily solved by setting, such as no signal, no sound, bluetooth connection failed, WiFi connection failed, dark spots, choppy animation etc. We promise all the projectors have been 100% carefully checked and packaged before shipping.

If you have any questions, could you please contact us so that the problem can be solved. And give us an opportunity to improve. We guarantee we will provide you a satisfactory solution.

Thanks for your understanding!

YABER Service Team

Tips

1. Do not place projector in too warm or too cold room, because the high temperature or low temperature will shorten lifespan of the device. The working environment would be 5°C ~35°C better.
2. If there are black spots on the projection screen, please don't worry, please contact **aftersales@yaber.com** via email, we can send you a video about how to remove the dust.
3. The projector shall be strictly protected from strong impact, extrusion and vibration. Do not try to move and on strong impact, extrusion and vibration. Do not try to move and the internal circuit faults.
4. Lens, as the core component of the projector, is directly related to the picture definition and effect. The excessive dust thereon will affect image quality. The dirty lens shall be wiped with soft cotton cloth for the glass lens surface. Hard cloth or abrasives shall not be used.

Note:

1. Install 2 pieces of AAA batteries into the remote controller before using it. Do not combine new batteries with old ones in remote controller, which can cause operation failure due to insufficient power supply.
2. When using the remote controller, please make sure that the signal transmitter of the remote controller aims at infrared signal receiver of the projector.
3. If you are not using the remote controller for an extended period, please take out batteries to prevent batteries leakage.

Installation

1. Installation Method

The projector can be hanged on the ceiling with special hanger frame, and placed on the stable desk to project the image according to the operating environment and requirements. In addition, the projector can be installed with following methods:

Keep the projector at a height where its lens is axial symmetry to the screen. If this is not possible, use the keystone correction function to adjust the projection image. If you want to get a free projection screen, please contact us via aftersales@yaber.com.

Aspect Ratio: 16:9	
Distance (ft.)	Screen Size
4.4	45"
5.9	60"
7.5	80"
9.8	100"

The recommended projection distance is about 7.5ft, the shortest projection distance is 4.4ft. The image size depends on the distance between projector and screen, there may be 3% deviation among above listed data. Different settings cause various distances.

2. Install on the Ceiling

The projector can be hanged on the ceiling with special hanger frame, and placed on the stable desk to project the image according to the operating environment and requirements. In addition, the projector can be installed with following methods:

1. Please purchase an universal projector ceiling mount;
2. In the central of the bottom of the projector, you will see the screw holes and use the M5*11mm screws for installing the ceiling, and then install it.

Starting Projector

1. Press the power key on the remote controller or projector, the indicator light will turn blue.
2. Use the focus function of the projector to get the best image performance. (If it is still blurry, please try to adjust the projection distance.)
3. Use the keystone function of the projector to get a rectangle projection screen.
4. Connect the external device (Smart phone, iPad, Fire TV, TV box, DVD player, Computer, etc.) in the corresponding interfaces of the projector, please be sure to select the corresponding source. If you do not select the correct source, the projector will not be able to detect the signal.
5. Select the " ⚙️ " menu, enter the [Common], then you can select the option [Language] to set your preferred language.

Image Adjustment

When using the projector for the first time, it normally displays an unclear image. This is due to the lens being out of focus or the incorrect trapezoid setting.

Please follow the below steps to correct:

1. Focus Adjustment

Focus Ring

If the image is not clear. You can use the manual focus function, and press the focus buttons "F+" and "F-" on the remote control to adjust the focus of the lens, until the image is clear.

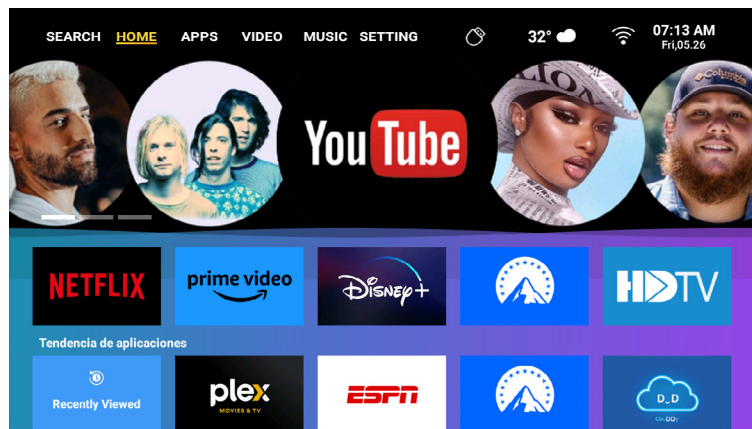

Note: If it is still blurry, please try to adjust the projection distance.

2. Digital 4D Keystone Correction

Use the digital 4D keystone correction of the projector to change the image to be rectangle (vertical and horizontal). Detail please refer the page 16 of this manual.

Setting Up The Projector

The projector's home page is as follow.

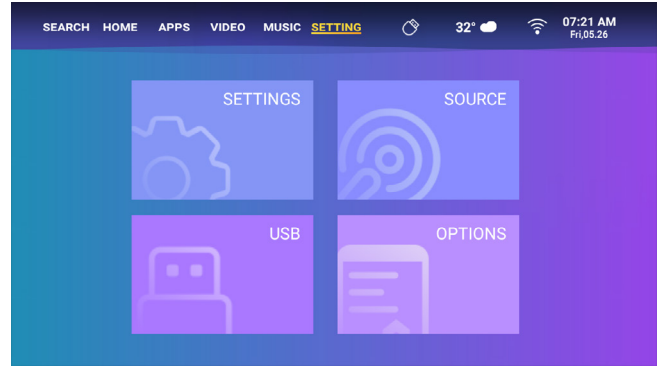

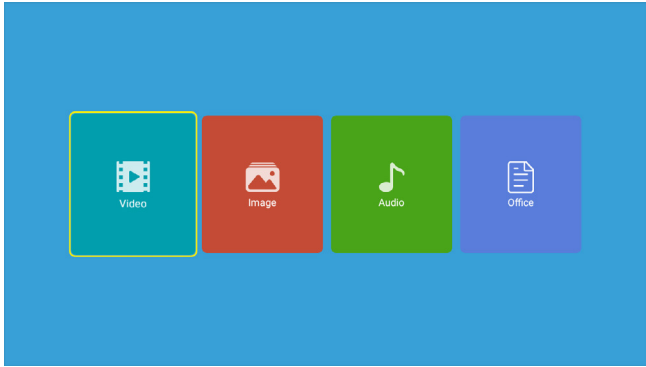

1. Select The Insert Signal Source

Select the desired insert signal source (HDMI/AV) on the home-page.

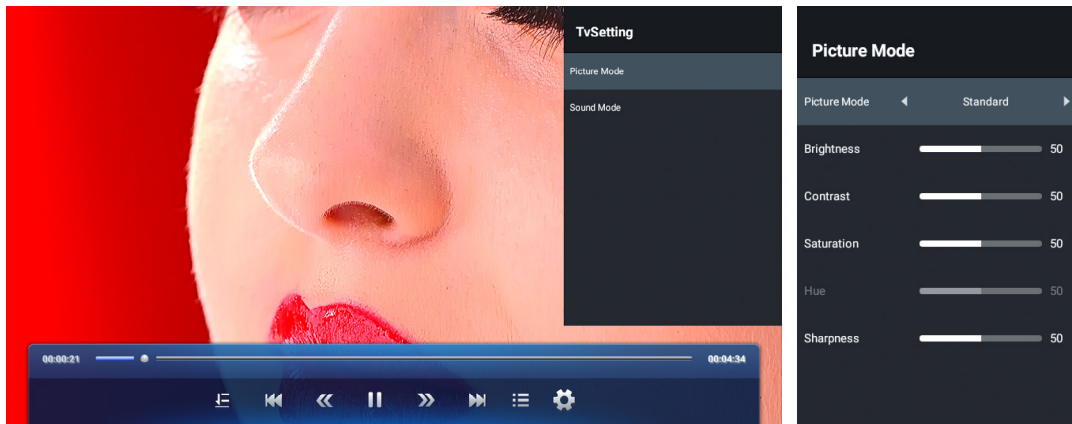

2. USB Disk Input Mode

2.1 Play Video/Audio/Image/Office in the USB Disk Input Mode

3. WiFi Setting

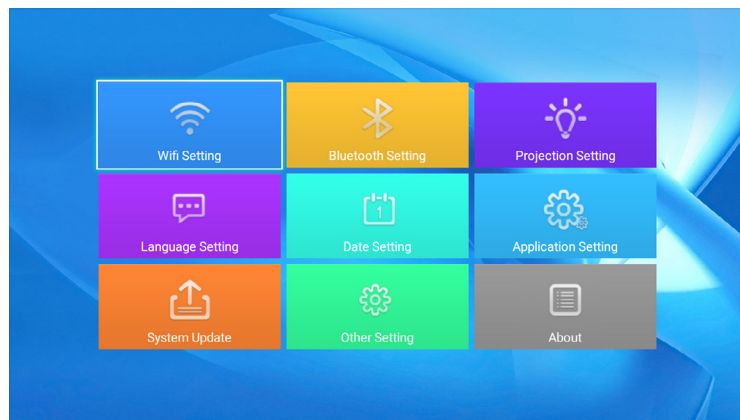

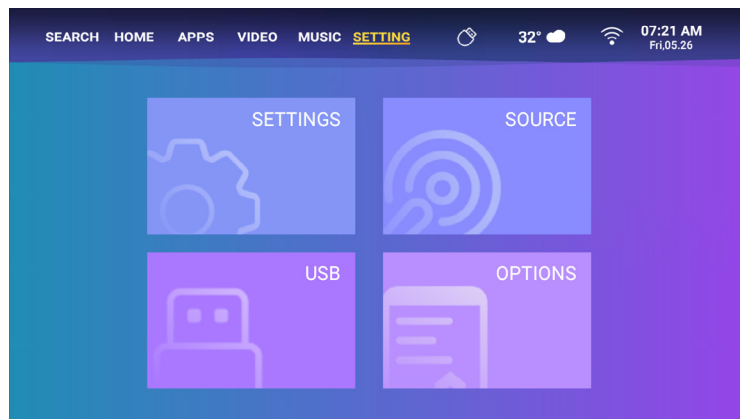

Wireless Connection

Warning Tips:

1. The fluency of screen mirroring with wireless connection will be affected by the network environment. A bandwidth of 100Mbit or more is recommended when using screen mirroring.
2. Make sure your mobile device is close to the projector when using wireless connection. A distance within 1 meter is recommended.
3. Some mobile devices may not support screen mirroring due to the compatibility.
4. Any questions, please feel free to email YABER via **aftersales@yaber.com**.

3.1 iOS Cast (for iOS Devices)

1. Go to Settings page - Select [SETTINGS] - Select [Wifi Setting]- Connect to your home WiFi from the list.

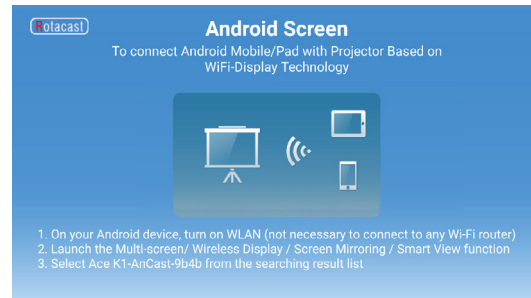

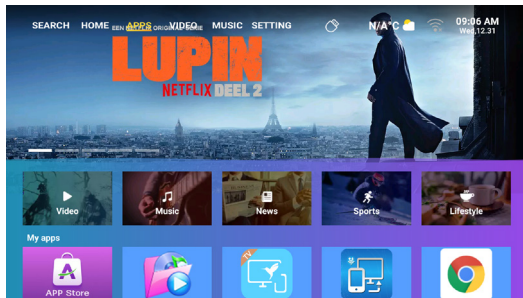

2. Select the [SETTINGS] menu on your iOS device - Turn on the [Wi-Fi] function - Connect your iOS device to the same home network as the projector.

- Open the [Control Center] on your iOS device - Select the [Screen Mirroring] function - Select and connect the iOS Cast receiver named [L1-XXXX] - your iOS device screen will be displayed on the projection screen after 3 seconds.

3.2 MaxhubShare (for Android Devices)

- Go to “APPS” page - Select "My Apps" row - Find [iOS Cast] App - Press the OK button to enter the [iOS Cast] menu.

- Select the [Settings] menu on your Android device -- Select the [Screen mirroring] function -- Select your Miracast receiver named [L1-AnCast-XXXX]-- your Android device screen will be displayed on the projection screen after 3 seconds.

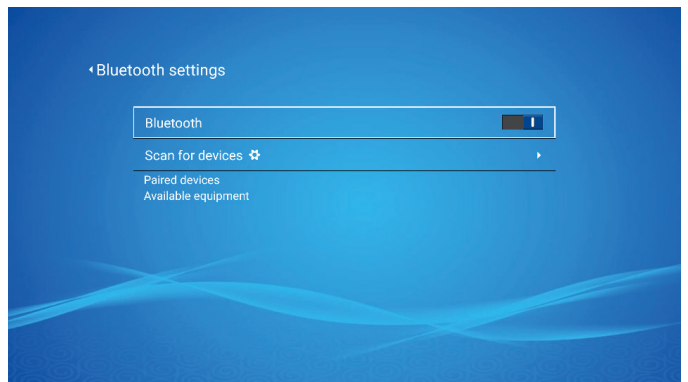

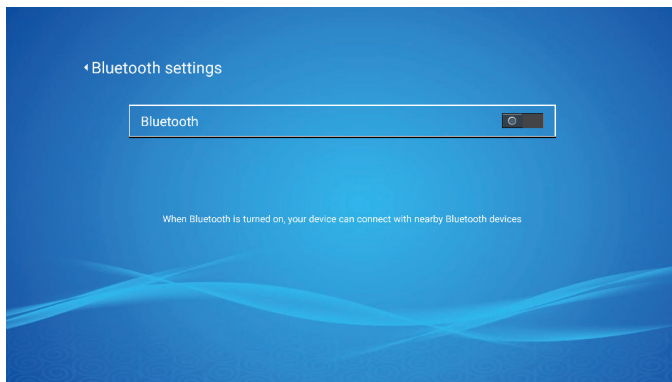

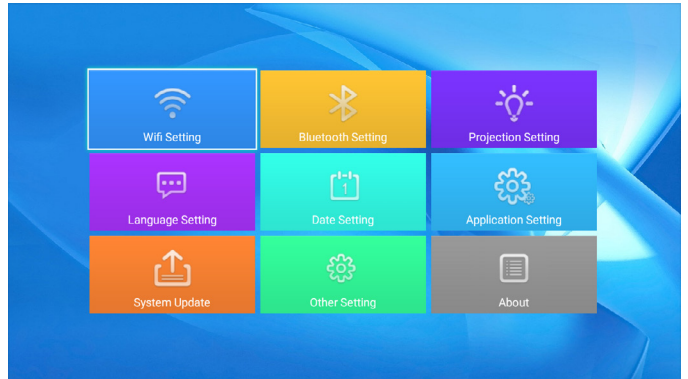

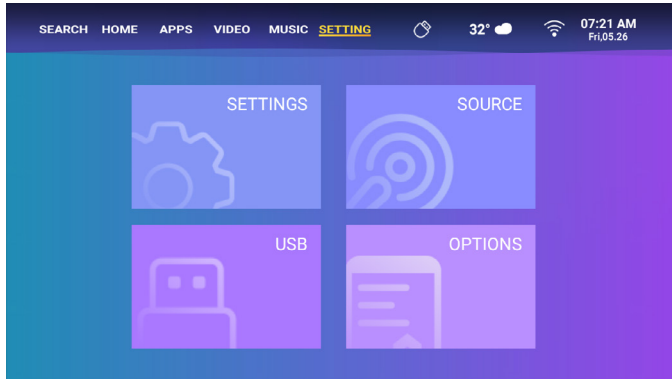

- On your Android device, tap [Settings] - [WLAN Display] - Turn [Wi-Fi] ON, Connect your home WiFi.

Note:

- Different brands of Android phones have different operations for select Screen Mirroring Display, please refer to your phone’s manual. [Multiscreen/Wireless display/WLAN display/Screen mirroring/Wireless projection/Smart view etc.]
- Not all Android phones support this function. Please make sure it is supported before use.

4. Bluetooth Setting

Go to setting page -- Select the [⚙️] -- Select the [Bluetooth] Option -- Open the Bluetooth function and your Bluetooth device -- Scan the Bluetooth devices nearby automatically -- Choose the Bluetooth device desired -- it will be paired and connected automatically.

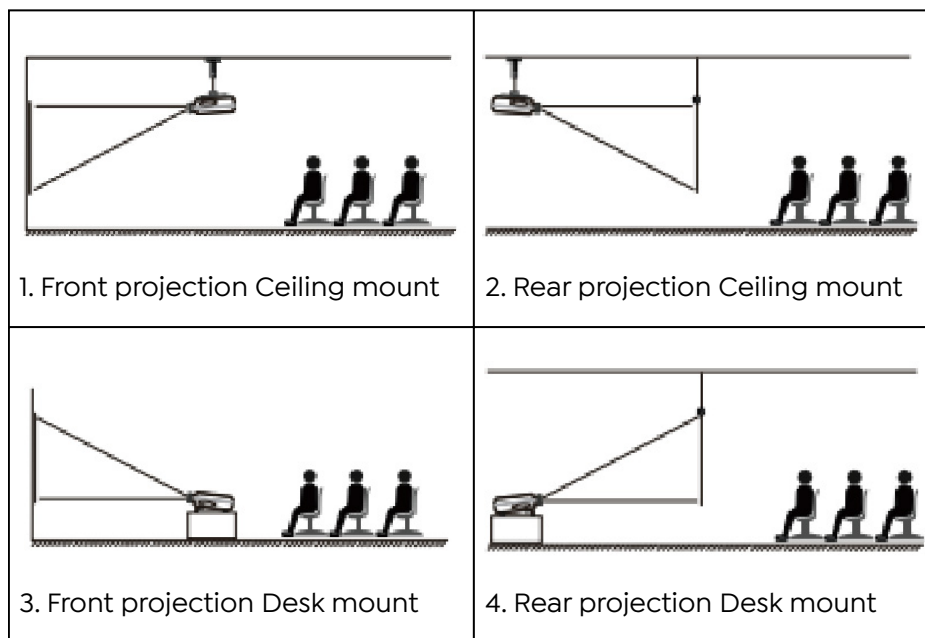

Note:

1. The L1 projector is compatible with the Bluetooth headsets, Bluetooth speakers and AirPods, but not the Bluetooth keyboards or Bluetooth phones.
2. If you have any question, please feel free to email YABER via: **aftersales@yabertech.com**

5. Projector Image Setting

5.1 Projection Mode

5.2 Horizontal & Vertical Keystone Correction

When the projection screen is not rectangular, it can be adjusted by 4-point keystone correction.

Step 1: Go to "SETTING" page - Select the [SETTINGS] menu - Select the [Projection Mode] option.

Step 2: Press the arrow keys on the remote controller or projector to adjust the horizontal or vertical parameters, until the projection screen becomes the desired rectangle.

OK Pick point : Press the OK button on the remote controller or projector to enter the adjustment interface.

Adjustment : Press the arrow keys on the remote controller or projector to adjust the horizontal or vertical parameters.

Back : Press the key on the remote controller to back to previous page.

Reset : Press the key on the remote controller to restore the original parameters.

5.3 Digital Zoom

Step 1: Select the [Digital Zoom] option and press the OK button on the remote controller or projector to enter the submenu.

Step 2: By pressing the button on the remote controller or projector, you can reduce the height and width of projection size up to 50%.

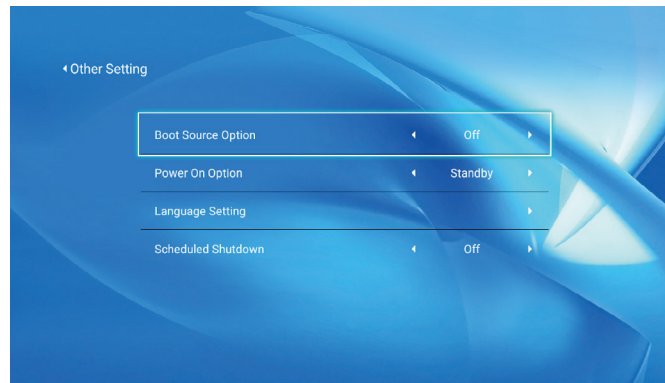

6. System Update

Menu	Function
Online Update	Online update
Local Update	Local update
